To Correspondents and Subscribers.

1 Subscribers who do not give express no tice to the contrary are considered as wishing to continue their subscriptions.

2 If they order the discontinuance of their papers the publisher may continue to send them until all arrearages are paid, and subscribers are responsible for all the numbers sent until such orders are received.

3 If subscribers neglect or refuse to take their papers from the office to which they are directed, they are held responsible till they have settled their bills and ordered their papers discontinued.

4 Courts have decided that a refusal to take a newspaper or periodical from the post office where it is directed, or a neglect to call for it, is prima facie evidence of fraud.

5 Subscribers to newspapers or periodicals are liable to pay so long as the paper is sent, or as long as it is sent to the residence of the person who has ordered it, or to whose name it is charged on the subscription books, unless notice to the contrary is given to the publication office.

PHOTOGRAPH 18—The Courtship of Miles Standish, received and for sale by

feb12 O. H. PATCH

The Honey Made Grass.

THE results which have been attained by experiments in the cultivation of this newly imported species of grass have awakened an interest among the farming classes in many sections, never before equalled in the entire history of our agricultural industry Facts in regard to its valuable properties which at first seemed almost incredible have now been established beyond the possibility of a doubt and it is believed, by those best capable of judging of its merits that its general introduction will add millions of dollars to our agricultural wealth I have not the space here to enter into details, but will present briefly some of its advantages

First—It will produce double the weight to the acre in any soil of any other kind of grass—from four to six tons per acre is not an uncommon yield and I am in possession of sworn statements by disinterested and responsible persons of a yield of over eight tons of cured dry hay from a single acre in sections where it was not possible to get more than one half the amount from any of the common grasses

Second—The same which possesses more nutriment and consequently will sell for a larger price in the market, thus leaving the farmer more than double the return from his grounds

Third—It can be cut from two to three times and on a rich ground as here other crops do, failed either by drought or the frosts as and at the same time will yield an abundant return

Fourth—In northern climates where clover and other grasses are killed out by hard winters, this is the hardiest grass, and those sections of the South where other grass will not thrive at all it will grow very profitably

Sixth—It will stand all kinds of weather, and whether the season be wet or dry the farmer may always rely upon the *Honey Blade* as a sure crop

These and other advantages are proved by facts which are endorsed by many of the first agriculturists of the Union and cannot fail to carry conviction to every intelligent reader

Having become deeply engaged during the past year in the purchase and importation of the pure *Honey Blade Seed* I have decided not to offer it for sale on such terms as will make it an object for every farmer and planter to interest himself during the coming season its cultivation It is put up in convenient packages of about one pound each the amount being sufficient to seed down one acre and they are sold at the low price of $3 per bag delivered in New York or St Louis

Single bags or lots can be sent to any part of the country as freight or express may direct Also put up delivery for transportation and the proper arrangements to make free of charge

Each bag is stamped with the Hungarian coat of arms, and the following letter patent *Honey Blade against Grass Seed* It will be sold by agents in various sections of the country, but parties should be sure that of which I have endorsed the name as none else are genuine

Second—The same which possesses more nutriment and consequently will sell for a larger price in the market, thus leaving the farmer more than double the return from his grounds

Third—It can be cut from two to three times and on a rich ground as here other crops do, failed either by drought or the frosts as and at the same time will yield an abundant return

Fifth—In northern climates where clover and other grasses are killed out by hard winters, this is the hardiest grass, and those sections of the South where other grass will not thrive at all it will grow very profitably

Sixth—It will stand all kinds of weather, and whether the season be wet or dry the farmer may always rely upon the *Honey Blade* as a sure crop

These and other advantages are proved by facts which are endorsed by many of the first agriculturists of the Union and cannot fail to carry conviction to every intelligent reader

Having become deeply engaged during the past year in the purchase and importation of the pure *Honey Blade Seed* I have decided not to offer it for sale on such terms as will make it an object for every farmer and planter to interest himself during the coming season its cultivation It is put up in convenient packages of about one pound each the amount being sufficient to seed down one acre and they are sold at the low price of $3 per bag delivered in New York or St Louis

Single bags or lots can be sent to any part of the country as freight or express may direct Also put up for delivery for transportation and the proper arrangements to make free of charge

Each bag is stamped with the Hungarian coat of arms, and the following letter patent *Honey Blade against Grass Seed* It will be sold by agents in various sections of the country, but parties should be sure that of which I have endorsed the name as none else are genuine

An interesting pamphlet containing all of the facts and full particulars will be furnished free of charge by mail or express on application I will state as an indication of the consideration with which these facts are receiving that nearly a quarter of a million of copies of this pamphlet have already been applied for

Until a desire to secure a trial shall induce a more extended introduction will be exhausted only to the following agents who have been appointed for the present year and to whom all orders must be addressed Those who secure seed this year can rely on a full supply for the future as I intend to supply the demand of farmers and planters for the coming another year

Orders will be sent direct from the following agents in the order they are received

Agents in Boston Merchants and others of good standing are invited to become agents for the sale of the *Honey Blade* seed Each agent will purchase and from 2 to 5 pamphlets for distribution will be furnished on application by mail or the New York Agency on receipt of 5 cents to prepay the postage

I am authorized to name the following well known gentlemen as agents Hon J R Barret President of the St Louis Agricultural and Mechanical Association, Vice President of the National Agricultural Society and Member of Congress from St Louis Gen J Tillinghast Oxford Mississippi President of the National Agricultural Society John J Anderson Banker St Louis John H Egan Jr Brother to Louis and ex Mayor Wood agents Kings St Louis

election was called at one o'clock. I got the polls and this being the case, listen to the manner closed at that time—but the polls had been opened some time. The—— in which, according to a correspondent, they or three were all drunk. I tried to keep a check-are treated in a western State of our glorious list, but to no purpose. As well have left it thrown to the confederacy: "The customs of ascertaining the will of the sovereign people in a certain county of vexation, by the unsavory habits and prejudices in getting all their old rubs and cards repaired, and buying but little new work. I stood it, however, said he, until one day I did Sam Crabtree brought in an old "bung-hole" to which he said he wanted a new barrel made. Then I quit the business in disgust."

Our little Daisy, as we call her, though her name is Florence, has a regular idea of the meaning of great names; and not having yet learned to spell, wrote at us about her rules of orthography. We had purchased from a Hebrew gentleman a poor farm horse, that was afflicted with some of the ills that horse-flesh is apt to. It is difficult he was named Bucephalus; a hard name for "Daisy" to pronounce; and for reasons best known to herself, she called the old horse "NEW ENGLAND!"

Republican Caucus.

The Republicans of Bangor are hereby notified to meet in General Caucus, at City Hall, on THURSDAY Evening next, at 7 o'clock, for the purpose of nominating a candidate for Mayor, to be supported at the approaching Municipal Election.

Per Order.

Republican Ward Caucuses

Will be held on FRIDAY Evening next, at the different Ward Rooms, for the purpose of nominating Aldermen, Councilmen, and Ward Officers, for the ensuing year.

CHAS O. RICORD
Per Order of City Committee.

Bangor, March 8, 1859.

The Old Granite State.

New Hampshire has left us in the electioneering line, with another of her curious Republican victories. With an increased vote, and of unusual strength and hopefulness on the part of the democrats under a new lead, the Republican popular majorities are still handsomely maintained—a clean sweep of Congressmen is made, where one district at least was considered doubtful—and two-thirds of the State Senate, and as large a proportion of the House are chosen from the Republican ranks.

In one respect, this result is peculiarly gratifying. It shows precisely how much the democrats are going to make here at the North, by their equatter sovereignty humbug—and by their protestations of friendly opposition to the Buchanan administration. The Douglas democrats cut off the heavy vote in New Hampshire—assuming a popular sovereignty platform and so assisting the party to it—and fought the battle as going opposed to Lecomptonism and to the entire policy of the Administration. It was confidently expected that either this palpable and deceptive leadership of the free soil democracy now in the Republican ranks could be induced to return to the Locofoco camp—or that one at least of the three members of Congress could be carried, and probably the Governor, if not the Legislature. The people, however, seem to have acted at their exact value the principles and professions of these equatter sovereignty gentlemen, and to have frozen all their candidates precisely as they would the candidates of the out-and-out wing of the party. This was right—for both wings are to the doctrines of that Dred Scott decision—and there is, consequently, but little to choose between them. New Hampshire has the honor of having the first State to detest the whole democratic and entire new stock of popular sovereignty. She has again shut the door upon the Republican party is the only organization upon which the cause of freedom can rely for support—and that she will stand by and support that organization against both open and concealed enemies.

MISREPRESENTATIONS. In speaking of the final passage of the Wesleyan Seminary resolves in the House, the Bangor Union says:

"The resolves were soon made the appearance, and after being discussed until about 12 M. the vote was taken, and the count was handed by the Clerk to the Speaker, which the latter stood *one* aye and three nays. Mr Blaine of Augusta then voted in favor of its making a tie. The Speaker took time to count, whilst a democratic member received five dollars a day for discharging certain duties in another branch of the Government, and who had been busily engaged all the forenoon in the House in favor of the resolves, rushed out and dragged in the venerable member from Montville, who in spite of his age was hardly visible in the hall, shrieked: "Mr. Speaker, I want to vote Yes!"

We happened to be in the House during the proceedings on the final passage of the above named resolves—and we pronounce the Union's statement a malicious misrepresentation. When the Clerk's count was handed to the Speaker, it stood one nay only for the resolve—not one against it. Mr Blaine's vote made two majority in favor—two absentees being called, by *order of the chair*, two negative votes to balance were obtained. Nobody rushed out after voters, and nobody was dragged in. The Speaker had no thought of another vote being given when he "took time" to verify the Clerk's count, *as he always does in all important cases, when the vote is close*, such as we believe it is his habit to do. Mr. Mason came in and voted unexpectedly to all present, as we believe. We know that Col. Smart had the assurance to insult such a charge against the Speaker, but the more honorable opponents of the resolve at once repudiated the dastardly conduct of the "gentleman from Camden," and entirely exonerate the Speaker.

In this connection a remark of the Times calls for a word of explanation. It says:

"Mr Pike of Calais very properly took notice of the peculiar conduct of the Speaker."

Now although Mr Pike did introduce an order relative to members voting who were not in the House when their names were called, he was very far from reflecting upon the conduct of the Speaker! On the contrary, if our memory serves, he took occasion very warmly and very emphatically to defend the Chair and to declare his disbelief in the slanderous and malicious imputations of evil motives.

THE WAR PROSPECT IN EUROPE. The Liverpool Mercury, of the 8th Feb., says of the war prospects:

"On all sides the warlike preparations go on—a little more silently, perhaps, but not a whit less energetically. When they are completed, the talk will, of course, become smoother and smaller, and three voices Austria lives way, the conflict will probably come."

A Paris correspondent says that instructions are to be or have been sent to the authorities in the departments to exhort or invite the provincial press to be less jubilatory in its tone, and to assume, if not a decidedly warlike, at least a firmer tone in their language.

The Paris correspondent of the London Times writes:

"Piedmont has resolved on going the whole length. Though events may put off hostilities to a later period—to next year I presume—yet in the quarter to which I allude, (the Kingdom of Sardinia) this postponement is looked upon by no means probable. In a word, Piedmont has formed the resolution of establishing under the House of Savoy, and with the aid of France, a strong constitutional Kingdom in the north of Italy; she believes this the only combination, the only solution possible, the only one practicable, the only one she will accept; and she counts upon having the whole of Italy with her."

The Military Gazette of Vienna says that Austria is well prepared—that 800,000 men can be placed under arms in a fortnight's time, and ready for any destination.

A STORY ON SKATES.—It is stated in an article going the rounds of the papers, that a man calling himself Signor Gregg Mowbill but whose real name is Andrew Greenleaf of Stockton Corners, crossed the Niagara river on stilts. About 200 yards above the Falls—that is, as near as he could get to the Falls—that he performed what no one has ever done before, and on a wager of $1000 to $500 that he could do it. As the distance said to have been but twelve feet over, we take the liberty to doubt the story—or as the river was frozen over.

THE PORTSMOUTH ELECTION.—We have received an account of the Portsmouth election, which is too long for our columns to-day, and also requires too much labor to prepare for the press. The writer denies that the result was a victory for the satisfied citizens. He says the officers elected are all sound democrats, and "cast off by Hon. Adams Grant, Custom House officer, and a main supporter of the Banger Union! We know very well that Mr. Treat and the other gentlemen of that party are most earnest in opposition to the Union, and we find that the ticket which they declared was entirely a Republican ticket. As to the merits of the division question we know but little; but we think the division should be made, if, as stated, by our correspondent a petition has been signed by a larger number than a majority of the votes polled at the election. We hope the Legislature will give the case a full and candid hearing.

THERE IS great excitement in Boston upon the Post Office removal question. A great indignation meeting was held at the Merchants Exchange on Tuesday evening, and a committee appointed to take measures to enforce the law which passed Congress prohibiting the removal, but the day before the office was mutually removed to Sumner Street. Postmaster Coburn is freely charged with having a pecuniary interest in removing the office to the new site.

THERE is a report that the anonymous letters to Messrs. Hey and Stickles, warning and informing the other, were written by a female friend of the former, in hugging a ball master who was jealous of his attentions to Miss Stickles.

A BRIDGE FROM FRANCE TO ENGLAND.—The papers publish the details of the project of Mr. Charles Boyd, for uniting England and France by a gigantic tube or bridge across the channel between Dover and Cape Grisnez, the nearest points of the opposite coasts. The bridge would be supported by one hundred and sixty towers at the distance of five hundred feet apart, each having a light to guide vessels at night, and an alarm bell during fogs. The greatest depth of the channel on the line proposed is one hundred and eighty-six feet. The bridge would have two or more railways, which, it is estimated, could be traversed in twenty minutes. Eight vessels could be built as to admit the light of day, being lighted at night by gas. In order to prevent all fear of its resting the projector proposes that each end of the tubular shall be commanded by a strong battery. The towers, which would be one hundred feet in diameter at the base, and one hundred and sixty-four feet high, would rest on colossal bases, three hundred feet square at the bottom, one hundred and fifty feet square at the top, rising to a height of forty feet above the water, formed of blocks of granite united by iron bars. The elevation of the top of the towers would be thus three hundred feet above the surface of the water. Mr Boyd estimates the utmost possible cost of the bridge at £20,000,000, but thinks it could be built for half that sum, and that the whole cost would be reimbursed to the company in twenty years. This project seems to promise much greater success than that of Mr Gamond, who proposes to build a tunnel under the channel at a cost of only £1,000,000.

THE VOYAGES OF A BOTTLE.—On the 31st of July, 1856, Capt. Richard Fitz Gibbon, of Bridgeport, Conn., then on board the steamer Ariel, bound for Havre, threw a bottle, enclosing a note wishing to report its longitude. A few days after he received a note from Mr Frederick Shaw, of North Carver, Mass., saying that he had picked up the said bottle on the 25th of October last, off Cape Sable Newfoundland, after it had been knocking about the ocean three years and a half!

SPECIFICATIONS. The Mechanics Association of Portland, has leased its new hall for use on Sundays to the Portland Spiritual Association, at a rent of $500 per annum.

LOCAL AND MAINE NEWS.

JOB WORK. We are prepared to execute Job printing of all kinds in the latest style and at as *cheap rates* as at any office in the State. Our friends who are in want of Cards, Bill Heads, Shop Bills, Blanks, Circulars or anything of the kind, will we hope bear us in mind.

THE REPUBLICAN CAUCUSES. We trust our friends will not forget the Republican caucuses called by a notice in another column, and to be held this evening and to-morrow evening, for the nomination of candidates for the different branches of our city government.—Let not the *apparent* quiescence of the opposition lull the Republicans into a too confident security. It is always safe to be on hand at every election. We hear, indeed, that some secret movement is going on among the bunkers; and we warn Republicans to be on hand at the election, and watch vigilantly against surprises.

Senator Hamlin arrived some time from Washington on Tuesday evening. Hon. Israel Washburn, Jr., daily arrived here last evening, and remained at the Bangor House until this morning.

The highest Republican vote was 228, the highest democratic, 218.

Orford. The Republicans made a *clean sweep*, electing every town officer by majorities ranging from 14 to 50. The election was closely contested. This is the first time that Republicans have carried the town at their Municipal election for the last ten years.

Hampton. A citizens' ticket was elected—two Republicans to one democrat on the board.

Windham. All Republicans except the Town Agent.

Readfield. Entire Republican ticket elected by a majority larger than ever before obtained in any election in that town. The majority was in no case less than five to one, and ran as high as ten to one in choosing Selectmen, Town Agent, &c.

Cornish elects a full Republican board.

Dunbarton elects Republicans.

Kennebunk. All Republicans.

Buckfield. Democratic board elected.

Norway. All the officers but two are Republicans.

Belgrade. The same.

Limington. Democratic Board.

Porter. Majority of Republicans.

Buxton. Democrats elected.

Fryeburg. Republican throughout.

Hiram. Ditto.

Durham. Democratic.

Unity elects a Republican board, after an open fight with the enemy.

Searsmont. All Republicans but the Moderator.

Jackson. All Republicans.

Winterport. Republican board.

Steuben. All Republicans but the Clerk.

Monticello. All Republicans and by strong majorities.

EASTERN NAVIGATION. The steamer Eastern City is advertised to re-commence her regular trips between St. John, Eastport, Calais, Portland and Boston, on Monday next, the 14th inst. She will leave Boston every Monday, and St. John every Thursday. The Admiral will soon go upon the route.

The Steamer Adelaide, the property of the Cobb's Steamboat Company, has been sold to the Baltimore Steam Packet Company for $65,000. We understand that she will run between New York and Baltimore.

APPROPRIATIONS FOR MAINE. It is stated that in the Army Appropriation bill an appropriation of $40,000 was made for the works on Hog Island Ledge, Portland Harbor, and $20,000 for the fortification at Buck's port.

EMPLOYMENT.—Captain Alden Nye, of North Yarmouth, whose sudden and mysterious disappearance last fall was noticed at the time, has returned home. He left under a temporary aberration of intellect, and when he recovered this consciousness, found himself in an asylum in Western New York.

ACCIDENT.—Yesterday afternoon a son of Deputy Sheriff Shepherd, a lad about 14 years of age, while playing with a favorite horse received from the animal a severe kick in the face. He was taken up insensible, and for a time it was feared that he was dangerously hurt. But we are happy to learn this morning, that his injuries are not so serious as we at first feared.—*Dexter Gem.*

ALBION A. PIKE.—During the election in Gorham, the dwelling house of Hon Hugh D McLellan caught fire. By the active exertions of the citizens, the fire was quenched after damaging the building to the amount of about $100.—*Argus.*

TO THE DAILY WHIG AND COURIER

Congressional.

WASHINGTON, 9th.

Mr Trumbull desires to make a personal explanation touching an editorial in the Union, and also touching a statement in the same paper by Mr Clingman, on the defeat of the Post Office Appropriation Bill, throwing the responsibility of its failure on the Republicans.

Several Senators objected, and the matter dropped.

The Senate then went into Executive session.

After the doors were opened the Vice President announced from the chair, and on motion of Mr Bright, it was ordered that Mr Fitzpatrick be President pro tem of the Senate.

A message was received from the President announcing the death of Mr Brown, the Postmaster General. He says the death of this distinguished public officer, especially at the present moment when his eminent services are so much needed is a great loss to the country. His learned and indefatigable exertions in the discharge of his high duties, as well as his sterling heart and kind disposition, endeared him to all who approached him.

The President, after alluding to Mr Dunning, to the value of Dun, Bradstreet & Co. and their services, says that although the present mercantile embarrassments are severe, they are not without their salutary effects. They will teach a lesson of caution and prudence, which will be long remembered. He has confidence in the ultimate success of the Government, and in the patriotism and intelligence justified by the people. He alludes to the part of the Secretary of the Interior in the settlement of the Texas boundary question, and says that the Secretary's report will be found to contain much valuable information. He also alludes to the Pacific Railroad, and says that the Secretary of War has taken measures to secure the services of Lieut. Gunnison, who is well acquainted with the country, to explore the route. He also alludes to the Mormon difficulties, and says that the Secretary of War has taken measures to send a sufficient force to Utah to maintain the authority of the laws. He also alludes to the Indian troubles, and says that the Secretary of War has taken measures to send a sufficient force to Utah to maintain the authority of the laws. He also alludes to the Indian troubles, and says that the Secretary of War has taken measures to send a sufficient force to Utah to maintain the authority of the laws.

The President, after alluding to Submarine, to the value of Dun, Bradstreet & Co. and their services, says that although the present mercantile embarrassments are severe, they are not without their salutary effects. They will teach a lesson of caution and prudence, which will be long remembered. He has confidence in the ultimate success of the Government, and in the patriotism and intelligence justified by the people. He alludes to the part of the Secretary of the Interior in the settlement of the Texas boundary question, and says that the Secretary's report will be found to contain much valuable information. He also alludes to the Pacific Railroad, and says that the Secretary of War has taken measures to secure the services of Lieut. Gunnison, who is well acquainted with the country, to explore the route. He also alludes to the Mormon difficulties

Opposition Line at Reduced Rates.

New York to San Francisco.

First Cabin	$150	Upper Steerage,	$100
Second Cabin,	100	Lower steerage,	80

The transit of the Isthmus included.

The Aroostook steamship WASHINGTON, 2000 tons register, Capt. Henry Churchill, having been fitted up expressly for the California trade by the Nicaragua route, will leave her pier, North river, New York, on Monday, the 6th of December, at 2 P. M., taking mail passengers, mails and freight to San Juan del Norte, to connect at San Juan del Sur with the well known and commodious steamship HERMAN, Capt. C. Scudder, for San Francisco, California. These splendid steamships offer unsurpassed accommodations for the comfort and safety of passengers. The Isthmus route is thoroughly repaired and in good order, and the climate healthy. For passage and freight apply only at the office of the Company, to

JOHN P. YELVERTON, Agent,
oct25 3m No. 9 Bowling Green, New York.

WINTER ARRANGEMENT.

NEW YORK & PORTLAND.

The Splendid and Fast Steamer

Chesapeake,

Capt. CONEY CROWELL, will run regularly between *New York* and *Portland*, as follows:

Leaves Brown's Wharf, Portland, every SATURDAY, at 4 P. M., and returning, leaves New York, Pier 12 N. R., every TUESDAY, at the same hour.

This vessel has just been fitted up with fine accommodations for Passengers, making this the most speedy, safe and comfortable route for travelers between New York and Maine.

PASSAGE $5.00—including Fare and State rooms.

Goods forwarded by this line to and from Montreal, Quebec, Bangor, Bath, Augusta, Eastport and St. John. Also, connects with steamers for Halifax. Goods taken through with despatch and at the cheapest rates.

Shippers are requested to send their freight to the Depot before 3 P. M. on the day that she leaves Portland.

For freight or passage apply to

EMERY & FOX, H. B. CROMWELL,
Brown's Wharf, Pier 12 N. River,
Portland. New York.
Portland, Dec. 10, 1858

California Steamers,

Carrying the United States Mail,

5th and 20th of each month.

Through Tickets, including transit of the Isthmus of Panama R. R.

CAUTION TO THE PUBLIC.

On account of the numerous frauds and impositions on travelers, those bound to California are cautioned to buy Tickets at the only authorized Agencies of the United States Mail line, as below.

By order of the Post-master General, the United States Mail Steamers will hereafter be despatched from New York to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamer without any extra expense. This is the only line giving entire Through Tickets, guaranteeing no detention on the Isthmus.

Transit, landing *four hours entirely by daylight*, thus avoiding the great exposure by night in open boats to fever and ague, and 200 miles of dangerous lake and river navigation, over rocks and shoals.

Arrangements have now been completed so that passengers by the U. S. Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mail and passengers, thus securing passage early by the Mail Line a *sure* and *short* passage, with the greatest comfort and safety to health.

Tickets must be signed by one of the Companies Agents before they will be recognized by the Agent of Panama, and tickets thus signed can be obtained at the only *authorized Agent* for the U. S. and Pacific Mail Steamship Companies, in this city.

LINCOLN'S WATER PROOF BLACKING AND LEATHER PRESERVATIVE.

Keep your feet dry and you will seldom need a Physician.

Is it not a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried, it soon becomes hard, stiff, and cracks; thus when it is water-proof this is prevented. By the application of this preservative, it remains soft and entirely impervious to water.

After being engaged for 25 years in the manufacture of leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting (in different compositions), and found it easy to make it water-proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which perfectly harmonizes with the stringent properties with which leather is tanned. It will not only make leather water-proof, but (likewise) soften the leather, and it will

Positively wear twice as long.

I have now used it for three years, and I say (as I do) that time have worked, in a wet factory with boots constantly in water, and have no hesitancy in recommending it to the public as the best article in the market.

EDWIN NOYES, Supt.
nov. 2, 1858

THE HATCH HOUSE,

Main Street, Bangor, Maine.

THIS House has been thoroughly repaired, refitted and refurnished throughout with New Carpets, Furniture, Beds and Bedding, and is now open for the reception of company, under the charge of the subscriber.

It is a large, commodious, and well furnished house, situated on Main Street, near the centre of the city, and within a short distance of the station where Wharves and the Depot of the P. & K. Railroad, to and from which, Coaches are always in readiness to convey passengers.

Its numerous advantages to strangers, and particularly to those visiting the city on business or pleasure, renders it one of the most desirable Houses in the city.

Connected with the House is a large and commodious stable, in charge of competent and faithful hostlers.

By strict personal attention to the comfort of its guests, the proprietor hopes to receive a liberal share of patronage.

NATHAN PERRY, Jr.
Bangor, Feb. 24, 1859

HONEY.

THE LUXURY AND PROFIT OF HONEY MAKING.

Torrey's Bee Hive

THE subscriber, having purchased the right of making and selling *Davis' Patent Bee Hive* for the Counties of Penobscot, Lincoln and Sagadahoc, which has been received with so much favor, and taken the first premium wherever exhibited, has introduced an improvement in the Bee Hive and is now prepared to make the same in connection with the Davis' Patent, and to sell rights to towns and individuals.

This Bee Hive, thus improved, is admitted by persons acquainted with the honey making business, to be superior to every thing yet invented for the purpose. It covers all the requisitions for the profits and instantaneous of the apiary, by providing for ventilation at all seasons of the year; room for the rearing and feeding of the bees; a device for the removal of excrement, for the proper separation of the swarms, and generally for the health and comfort of the workers.

The boxes used in this Hive for storing Honey can be best adapted in their size, for the market, holding from three to six pounds each.

The subscriber wishes to purchase one hundred swarms of bees in exchange for bee hives and rights as above.

For sale, forty swarms of Bees with the new hives.

For hives, individuals' rights, &c., address

E. S. TORREY,
feb13 d4w Fifth-street, Bangor.

DR. HOBENSACK'S Worm Syrup and Liver Pills.

PROBABLY the reason why Worm Medicines so frequently fail to any *good effect*, is the fact that they contain no qualities except to *Worm Killers*. Consequently in many instances where we mistake the symptoms of disease and doctor for worms, when the cause of disease is but a *derangement of the system and consequent debility and bad health*, the *only remedy* known, will remain in the use of *Dr. Hobensack's worm syrup*, because it, *being an active remedial agent*, as soon as *worms die*, the patient immediately gets well, though no worms are brought away.

Thus it will be readily seen that it possesses *many advantages* over other worm medicines, as it not only *destroys and kills* and brings away worms, but builds up and restores the patient to general health.

American Safety Paper.

Manufacturing Company of N. Y.

Capital $500,000.

A. NICHOLAS, President. Office, 70 Wall-st.

A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Photographs and Anastatic Counterfeits, Erasures, Transfers or Alterations.

HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Papers in America, invented and patented in England by HENRY GLENN, a celebrated chemist and officer in the British army, it is hardly necessary to say that the Paper is recommended by Mr. Kent, Assayer of the U. S. Mint, Mr. Lyman of the New York Clearing House, and Meade Brothers, extensive and skillful photographers, 233 Broadway, N. Y. The latter say that no imitation can be made on a check or bank note printed on the Safety Paper. Below is our list of prices:

Bank Checks—25 cts. per lb.
Bank Bills—$18 for 1000 sheets.
Bills of Exchange—$25 for 1000 sheets.
Promissory Notes—40 cts. per lb.
Sight and Time Drafts—$25 for 1000 sheets.
Insurance Policies—40 cts. per lb.
Railroad Stocks and Bonds—40 cts. per lb.
Bank and State Stocks—40 cts. per lb.
Bonds and Mortgages—40 cts. per lb.
Wills and Deeds—40 cts. per lb.

For wrapping Silks and other fine articles it is excellent, as it prevents moths. 40 cts. a lb.

For Indentures and Agreements, 40 cts a lb.

All State and County Records should always be printed or written on this paper, as the chemicals inserted in the pulp not only prevent erasure or transfer, but makes it lasting as time.

For Southern climates it is excellent, and much superior to any other, as the moistness of the climate does not destroy it,—the properties inserted in the pulp being a preventive. In all the Southern States, Cuba, the West Indies, and the Central American States, as public records can be kept over 20 years, written on the ordinary paper while the oils and other chemicals inserted in this paper makes it indestructible by the ravages of time. It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use.

The Company have now in operation Mills in Merrin County, N. J., of about 250 horse power, and are able to fill all orders for Paper at the shortest notice.

All orders for the Paper must be addressed to A. NICHOLAS, President of the Company, No. 70 Wall street, New York.

july 20

American & Foreign Patents

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington under the Act of 1837.

7d State St., opposite Kilby St.,

BOSTON.

AFTER an extensive practice of fifteen years in the United States, and in Great Britain, France, and other foreign countries, Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. If searches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by returning One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, of ascertaining the patentability of inventions unexamined by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents, which, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse.—ELISHA MASON."
Commissioner of Patents.

"I have no hesitation in saying, myself, that they (should) employ a person more competent and trustworthy, and more capable of putting in the applications in order to secure them at early, and favorable consideration in the Patent Office.—EDMUND BURKE."
Late Commissioner of Patents.
Washington, February 9, 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications in all, and has obtained Patents for twelve of them, and it is now pending. Such diligence, I believe, cannot be found and skill such as I feel he possesses and all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.—JOHN TAGGART."

From Sept. 17 to, 1857, to June 17, 1858, the subscriber, in the course of this large practice, made, on advice rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.

R. H. EDDY.
Boston, Sept. 1, 1858. 3taw1w

READ! READ! READ!

Many persons suffer severely by reason of weak eyes. The reflection of the sun on the snow-sight blinds them, their eyes water when they are exposed to a slight wind, or have to travel or ride in the open air a strong light blinds them, they suffer a smarting, Burning sensation as if dust was thrown in the eye, they are unable to read or write by gas or lamp light. All these troubles can instantly be remedied by the use of

Dr. Pettit's American Eye Salve.

Rev. O. M. Woodward, writes: *GOGGLES and GLASSES, my companions for eighteen years, have been laid aside. I have all this storms of winter and heat of summer with the naked eye.*

THE LIVER

NVIGORATOR,

PREPARED BY DR. SANFORD,

Compounded entirely from Gums,

IS ONE OF THE BEST PURGATIVE AND Liver Medicines now before the public.

These Gums remove all impure, or badmatter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, purifying the blood, giving tone, and health to the whole machinery, improving the cause of the disease—effecting a radical cure.

Biliousattacks are cured, and what is better prevented, by the occasional use of the Liver Invigorator.

One dose after eating will relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring prevents nightmare.

Only one dose taken at night lessens the bowels copiously, and cures costiveness.

One dose taken after each meal will cure *Dyspepsia*.

One dose of two tea spoonfuls will allay *Fever*, and will cure any ordinary case of *Headache*.

Only one dose immediately relieves *Cold in the Head*.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

Price One Dollar per Bottle.

DR. SANFORD, Proprietor, No. 335 Broadway, N. Y.

Sold by all Druggists, and by dealers in Medicine everywhere.

T. C. Butler, Esq.

Dear Sir:—During the last car, I have sold some 300 packages of your Miller's Condition Powders, for Horses and Colts, and in no instance that I have heard of, have they failed of giving entire satisfaction.

I regard them as standing at the head of all Horse medicines now in the market, and am sustained in this opinion by all the stable-keepers and owners of horses who have used them in this vicinity.

I cheerfully give my testimony in favor of your Powders, and advise all interested to give them a trial. Very respectfully yours,

(Signed) WILLIAM R. HESTON,
Apothecary.

We, the undersigned, fully concur in the above recommendation. (Signed)

Nathan Jones, stable keeper, Portsmouth.

New City Coach.

The subscriber is happy to inform his friends and the public, that he has procured, and will this day commence running, for their accommodation, one of the best and most convenient Hackney Coaches ever brought to this city, with an elegant team of horses; and that he will hold himself in readiness to execute promptly, faithfully, and in the most careful manner, any commands in that line with which he may be favored.

Orders Books may be found at the Express office of Messrs. Hodgman, Carrier Co. and at the Avenue House, (late Western Hotel,) corner Fourth and Union streets.

N. B. Select parties of families taken to and from Mt. Hope by leaving their orders at my books at any of the above places. N. A. MATHEAS.

Bangor, July 28, 1858

TO HORSE OWNERS

READ! READ!!

CLAREMONT, N. H., March 18, 1858.

Mr. T. C. Butler—Dear Sir:—I have sold the gross of Miller's Condition Powders all out, that I bought of you. You may send me ten dozen more Powders by express, and let them pay you for them, and I will pay them here—as soon as you can, for I have customers waiting for them. (Signed) O. J. BROWN.

NEWBURYPORT, Ms., April 1, 1858.

Mr. T. C. Butler—Dear Sir:—The first of Feb. last you left me some of your Miller's Condition Powders. I have tried them myself, and many of my friends, and we find them to answer your recommendation so well, that I want you to send me six dozen more as soon as convenient. Please let the expressman pay you for them, and I will pay them here.

(Signed) MOSES COLEMAN.

C. W. ATWELL, Dealer Block, Portland, General Agent for Maine.

The Boston Journal

FOR 1859.

"The Favorite Paper of New England."

Published Daily, Semi-Weekly and Weekly.

Payment invariably in advance.

In announcing the terms for THE JOURNAL for 1859, the proprietor deems it unnecessary to descend into particulars in regard to the character of its contents. It is well known as a family newspaper, and to make any specific promises for the future, he deems it sufficient to say that

THE BOSTON JOURNAL

has been in the past, and will continue to be in the future, the cheapest and best family newspaper published in New England. It is its constant aim to furnish the greatest amount of useful information for the least money. It is conducted on principles which go to make it a welcome visitor to the fireside, the counting room, and the workshop. It aims to be entertaining, instructive, and reliable, by pursuing a steady, consistent course, and by exhibiting no more enterprise than is consistent with the strictest regard to truth and honor. It has been the constant effort of the conductors of the paper to make it worthy of the confidence of the community, and they feel that they have succeeded in their efforts to a degree which has called forth the warmest commendations from the press and people of all sections of the country. Three years ago it was the *First* paper in New England to reduce its price to *Three Dollars a year*, and it was also the *First* to reduce it to *Two Dollars*. The proprietors have the satisfaction of knowing that the reduction of the price has been followed by the establishment of the cheap system in the case of many other papers, and by the introduction of improvements in the mechanical execution of newspapers, which have greatly increased the attractiveness of the publications to which they have been applied. And they feel that they have the right to claim that the reduction of the price of the JOURNAL has been followed by a steady increase in the number of its readers.

BOSTON DAILY JOURNAL.

Morning and Evening.

Contains the latest news by telegraph and mail, and is published at the earliest hour practicable. It is the *Cheapest Daily Paper in New England*, as the price is only *Three Cents*, and the paper contains as much matter as any other daily paper published in Boston. It is made up with the greatest care for the information of New England readers, and contains many *further Maine items* of interest than any other paper printed in the State. It has a large circulation in every town in Maine, which is a much better medium for advertising than any other paper printed in the State. It is located at the centre of the business, and is accessible to all. It is open every business evening, and will receive advertisements until 9 o'clock. Its columns are open to all, and offer to every leading interest and every class of the community the best facilities for reaching the public. The circulation is increasing every day, and is now larger than ever before. Six Dollars a year.

SEMI-WEEKLY JOURNAL.

Tuesday and Friday Morning.

Contains all the reading matter of the DAILY JOURNAL for the three days intervening from the issue of each number. The subscription is

Three Dollars a Year.

TO CLUBS.

Five copies, one year,
Ten copies, one year,

To Ministers now in the ministry who desire a daily paper, the JOURNAL will be sent gratuitously.

BOSTON WEEKLY JOURNAL.

Great Success of the Club Plan.

Three years ago the proprietors of the JOURNAL decided to reduce the price of the Weekly Journal, and the success of the movement which has been followed by the establishment of cheap weekly papers in all sections of the country, has been unprecedented. The circulation has increased by many thousands, and the paper has become a favorite medium for advertising with the public, and one of unsurpassed value to agent and enterprising advertisers.

Three Times as Large

As any subscription or Two Cents. It is published in Boston, and in all cases appears in both the MORNING and EVENING papers, renders it a favorite medium for communicating with the public, and one of unsurpassed agent and enterprising advertisers.

The Boston JOURNAL is favorable known as a Newspaper and Periodical Depot in Boston. All the principal cities and towns in Maine, New Hampshire, and in the "burbs of New England, and in the "burbs of all the railroad leading from Boston, have their regular carriers at the depot of the business of the cities and towns, such as Worcester, Nashua, Lowell, Lawrence, Portland, Me., Bangor, Me., Concord, N. H., and in the adjoining cities of Roxbury, Cambridge and Charlestown, with great regularity and promptitude, and in the case of
